

'Park Care and Share' Workshop Series

Southern ACT Catchment Group in partnership with our member groups invite you to come along to the new monthly workshop series run by ParkCarers and Landcarers for ParkCarers and Landcarers in the ACT region.

Pick up new skills, knowledge and support in your volunteering activities with workshops topics including native plant and weed ID, erosion control trials, habitat improvement, innovative weed control, monitoring and more!

Got something to share?

Park Care and Share is an initiative to promote information sharing and cross fertilisation of ideas and methods across groups in the region. So why not share some of your knowledge and experience with fellow volunteers? To host a workshop on your patch call Martine.

Next workshop

Cooleman Ridge

Native vegetation ID in an area of exclusion fencing

February 18th

5.30-7.30pm
