

SAVE LAKE TUGGERANONG – Actions from July 9 meeting

Design	Clean up	Wetlands	Education	Mixed	Government
Better residential Landscape design -	Establish a FRIENDS OF LAKE TUGGERANONG	Create chain of ponds to begin the healing of the land from source of creeks and along storm water channels	Advise majority of residents of East side of Greenway of outcome of tonight	Find out what others have done about Algae	Plan and funding commitment (Government) for filtering quality of water in Lake
Develop a Master Plan for catchment and Lake Tuggeranong	Bi-monthly cleanup by local community	More ponds & wetlands along water ways	Educate Home Owners	Explore and verify successes of previous lake management strategies	Get it on the political and planning agenda
Master Plan to include lake/groundwater management strategy	Regular cleanups of lake - 4 times rather than once a year	Slow runoff	Positive awareness raising leading to community engagement	Set up a Lake Tuggeranong Trust Fund and Public Consultation on terms of trust deed	Action from politicians – get them to understand how important this is to the community
Re-design drain system	Working Parties of volunteers and plant	Plant more reeds/sedges, wetlands		Discourage use of chemicals in the Catchment including household & garden chemicals	Get it on the political agenda
Develop Lake Tuggeranong Health Improvement Master Plan	Clean up while walking	Break the concrete drains - replace with wetlands and natural systems		Organise a bird watching club	Get it on the political agenda
Support Calwell Richardson masterplan ASAP to see a properly planned area for the ponds in Tuggeranong homestead, because if ponds aren't on the masterplan it is unlikely to happen (SE Tugg Residents Assoc)	Form LAKE TUGGERANONG ACTION GROUP to coordinate, initiate development of plan	Develop plan and timeline for wetlands - starting point Tuggeranong Homestead		Blue green algae is not a new challenge. Research other successful remedial actions from other jurisdictions	
Master Plan	Physically cleanup - get moving, pick up litter, planting, weeding etc	Improvement of Wetlands		Address storm water runoff issues in already developed areas	
	Install more garbage bins			Don't wash cars on paved areas
